INVESTMENT POLICY

SCOPE

This investment policy applies to the cash funds of Riverside Transit Agency, except for its employee's retirement system fund, which is administered by the California Public Employees Retirement System (PERS). A Separate Section 401 and 457 Deferred Compensation Fund is administered by Great West Retirement Services (Great West.) These funds include Operating and Capital Funds.

OBJECTIVE

Investable funds shall be invested to the maximum extent feasible. The primary goal of the investment program is to maintain safety and liquidity of principal and interest while maximizing returns, minimizing risks and ensuring that funds are available to meet anticipated cash flow requirements.

In the investment of its funds, Riverside Transit Agency will be guided by the following principles in order of importance:

1. The primary objective of the investment program is to safeguard the principal of the funds.
2. The secondary objective is to meet the liquidity needs of the Agency.
3. The third objective is to achieve a maximum return while assuming minimal risk on Agency investments.

AUTHORIZED INVESTMENT OFFICERS

The Chief Financial Officer is designated as the Investment Officer for the Agency and is responsible for investment decisions and activities, under the direction of the Chief Executive Officer. Cash management and investment transactions are the responsibility of the Investment Officer. In the absence of the Chief Financial Officer, the Chief Executive Officer will designate a temporary Investment Officer.

The authority to execute investment transactions on behalf of the Riverside Transit Agency will be limited to the:

- Chief Executive Officer
- Chief Financial Officer
- *Chief Operating Officer*
- Chairman of the Board

Two authorized signatures will be required for all investment transactions and wire transfers as delineated in Resolution 98-04 adopted on May 28, 1998, or any revision thereafter subsequently approved by the Board of Directors.

ETHICS AND CONFLICT OF INTEREST

Officers and employees who are directly involved in the investment program shall refrain from personal business activity that could conflict with proper execution of the investment program or which could impair the ability to make impartial investment decisions.

PRUDENCE

The standard to be used by investment officials shall be that of a “prudent person” and shall be applied in the context of managing all aspects of the overall portfolio. Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, direction and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as probable income to be derived.

The Agency realized that market prices of securities would vary depending on economic and interest rate conditions at any point in time. It is further recognized, that in a well-diversified investment portfolio, occasional measured losses are inevitable due to economic, bond market or individual security credit risk. These occasional losses must be considered within the context of the overall investment program objectives and the resultant long-term rate of return.

The Investment Officer and other individuals assigned to manage the investment portfolio, acting in accordance within the intent and scope of the investment policy and other written procedures and exercising due diligence, shall not be held personally responsible for security credit risk or market price changes, provided that deviations from expectations are reported immediately to the Chief Executive Officer and that appropriate action is taken to control adverse developments.

SAFEKEEPING

Agency cash and investment securities, if any, shall be held in safekeeping by a designated institution. The institution shall issue a safekeeping receipt to the Agency listing the specific instrument, rate, maturity and other pertinent information as applicable. The independent auditors should review safekeeping procedures annually along with internal controls.

MONITORING AND ADJUSTING THE PORTFOLIO

The Investment Officer will routinely monitor the contents of the portfolio, the available markets and the relative values of competing instruments, and will adjust the portfolio accordingly.

INTERNAL CONTROL

The investment portfolio and all related transactions are reviewed and balanced to appropriate general ledger accounts by the Finance Department on a monthly basis.

Internal controls shall be reviewed annually by the independent auditor. The controls shall be designed to prevent a loss of public funds due to fraud, error, misrepresentation, unanticipated market changes or imprudent actions.
