

RIVERSIDE TRANSIT AGENCY
1825 Third Street
Riverside, CA 92507

September 28, 2006

TO: BOARD OF DIRECTORS
THRU: Larry Rubio, Chief Executive Officer
FROM: Mark Stanley, Director of Planning
SUBJECT: Status of RTA Service to Schools

Summary: Since the early years of Riverside Transit, it has been part of our mission to provide convenient access to educational facilities. To ensure continuation of the mission, we periodically, review bus routes to determine how effectively we are serving the school systems throughout the Agency's service area. Attachment A outlines the public and parochial school systems served by RTA fixed route transit for grades one through twelve.

Staff surveyed all public school districts in the service area. Parochial schools were located with assistance of local chambers of commerce and trade organizations. For the purpose of this study, schools within a ¼-mile walk are considered as served by the agency.

The majority of schools in the urbanized area of western Riverside County are served by public transit, through RTA directly, community based transit or by school bus. RTA does service analysis using the standard grouping of grade levels:

High Schools

- High school students represent one of the larger groups of student riders. RTA serves 45 out of 65 (or 69%) public and private high schools. The percent of high schools served by some form of public transit is 78 percent.
- The 21 high schools not served by RTA are as follows:
(* indicates high schools served by either Corona Cruiser or Pass Transit):
 - Nueva Vista Continuation (Rubidoux),
 - Three high schools in Corona: Centennial*, Corona* and Santiago,
 - Norco, Banning*, Beaumont*, Mesa Grande (private), Val Verde, Roosevelt

- o Early College, Paloma Valley, Cornerstone Christian (private) Hemet, Glenview* and New Horizons*,
- o Tahquitz (in Idyllwild), Hamilton (in Anza), Alessandro Alternative,
- o Vista Murrieta and Murrieta Mesa High Schools.

Middle Schools, Intermediate Schools and Junior Highs

Middle and Junior High students are the second largest component of student ridership. Out of 75 Junior High or Middle Schools, 46 (or 62%) are served by RTA buses. Counting those accessed by other transit, 53 of 75 (or 71%) are served.

Elementary Schools

Elementary school students are least likely to use transit due to security and behavioral challenges. Staff inventory shows that 121 of 272 (or 44%) elementary schools are served by RTA. About half of the schools not served are located in Corona, Beaumont, Banning, and other areas away from current RTA service. Counting other transit, 136 of 272 (or 50%) elementary schools are served by public transit.

The following table summarizes the percentage of all schools served by RTA in these designated areas:

Riverside City	78%	
Corona	19%	43%**
Norco and nearby communities	16%	
Jurupa	52%	
Moreno Valley	62%	
Lake Elsinore and nearby communities	40%	
Beaumont	0%	100%**
Calimesa	0%	
Canyon Lake	n/a	(no schools)
Banning	0%	100**
Perris and nearby communities	51%	
San Jacinto	64%	
Sun City, Menifee and nearby comm.	33%	
Wildomar	43%	
Hemet and nearby communities	41%	
Murrieta and p/o French Valley	41%	
Temecula and p/o French Valley	39%	
RTA Total: 185 of 391 schools:	47%	

** Indicates percentage of Corona, Banning and Beaumont schools served either by RTA, the Corona Cruiser or Pass Transit.

The most likely reasons that explain why RTA does not serve some schools are:

- The schools are situated in areas served by other transit operators and RTA service would only be duplicative;
- They are situated at or near the outskirts of local RTA service in communities such as East Hemet, for example;
- School district buses already adequately serve the school;
- They are situated in relatively sparsely developed areas such as Lakeview, Paloma Valley or Winchester;
- They are just-opened schools that were not included in the current bus route planning cycle;
- They are outside of RTA service area such as Hamilton in Anza;
- Schools are often sited in the middle of neighborhoods or off major arterials for safety and pedestrian-access reasons and thereby are not easily accessed from primary RTA service corridors.

On the attached list, universities, colleges or vocational schools were not included.

Fiscal Impact:

No fiscal impact.

Committee Recommendation:

This item was discussed at the Board Operations Committee meeting of September 13, 2006. The Committee members unanimously approved recommending this item to the full Board of Directors for their consideration.

Recommendation:

Receive and file.

**** RTA SERVICE TO SCHOOLS IN RIVERSIDE COUNTY ****

ATTACHMENT "A" -- SUPPLEMENT TO STAFF REPORT -- Explanation Notes:

- * Compiled July 2006. Schools are considered "served" if they are within ¼-mile of an RTA bus;
- * Arranged by city and by logical assemblies of contiguous unincorporated community areas;
- * Includes all public and private elementary, middle, jr high, sr high and special ed institutions if known;
- * No colleges, universities or trade schools; Does not include local operators like Corona Cruiser or Pass Transit;
- * Organization of chart below will tend to be compiled linearly by bus route from one end to the other;
- * Sources: District websites, Thomas Bros maps and lists, Ride Guide, Inquiries with local school districts
