TO: BOARD OF DIRECTORS
THRU: ^JLarry Rubio, Chief Executive Officer
FROM: ^{CF}Craig Fajnor, Chief Financial Officer
SUBJECT: Fiscal Year 2007 Projected Farebox Recovery Ratio

Summary: The Agency relies on a Transportation Development Act (TDA) funding subsidy in order to cover approximately 68 percent of its annual operating expenses. This funding is predicated on compliance with TDA operating provisions and statutes. TDA Provision 99268 states that claimants shall meet or exceed a predetermined ratio of fare revenues to operating expenses. This is known as a Farebox Recovery Ratio.

In recent periods, policy and legislation has been adopted that clarifies and expands the definition of allowable parameters relative to the calculation of the Farebox Recovery Ratio. A Farebox Recovery Policy adopted by the Riverside County Transportation Commission (RCTC) expands allowable passenger fare revenues to include Local funds and Local Support revenues. Assembly Bill Number 813 (AB813) allows for the exclusion of comparable paratransit service, fuel, and liability insurance premium expenses that exceed the prior fiscal year, adjusted by the Consumer Price Index (CPI).

The attached table reflects the Agency's current year-end forecast for the fiscal year 2007 Farebox Recovery Ratio. It is based on a linear projection of fiscal year to date actual costs through September 2006 and, in specific known cases, adjustments from that linear projection. In addition, a conservative approach to AB813 exclusions and the inclusion of Local Support revenues per the policy and legislation stated above are also included.

The current projected fiscal year 2007 Farebox Ratio forecast is 19.09 percent. The predetermined target ratio is 17.65 percent, resulting in a favorable variance of 1.44 percent. The Agency should meet and exceed its Farebox Ratio target.

Staff will continue to provide the Board with Farebox Recovery Ratio updates and compliance strategies as required.
