

SAFETY IS A SHARED RESPONSIBILITY

Let's work together to keep travel safe!

The coronavirus is a type of virus that can infect your nose, sinuses or upper throat. While it poses a serious health risk to people in the United States, there are measures RTA bus riders can take to stay healthy.

TIPS TO AVOIDING THE CORONAVIRUS:

Wash hands frequently with soap and water or use a sanitizer gel.

Catch coughs and sneezes with disposable tissues. Throw away used tissues and wash your hands.

Avoid touching your eyes, nose and mouth with unwashed hands.

Avoid close contacts with people who are sick.

Safety is our number-one priority. RTA is taking special care to disinfect our buses inside and out to maintain a clean environment.

If you have any concerns about coronavirus, seek advice from a doctor or visit www.cdc.gov/COVID19.
